**Subject:** 12/15 EPA/CalGEM/SWB meeting notes

Hi David, here are some notes from yesterday's call. Abby, feel free to add anything else. Thanks. Calvin

EPA updates:

- The EPA Administrator letter about Class VI primacy went out on Dec 9, 2022; a copy of the letter sent to CalGEM and SWB.
- A request for states to submit a letter of intent for Class VI grant program will be issued in couple weeks.
- Links to EPA CCS symposium videos sent to CalGEM and SWB.
- Sespe congressional response won't go out until Jan 2023.

CalGEM update:

- A veto referendum to repeal SB 1137 effort led by California Independent Petroleum Association – as of Dec 13, about 1 million signatures collected.
- CalGEM will reach out to EPA for a discussion call re Class I permitting process in Jan 2023 (didn't catch why but Sunrise wells were mentioned); replied that we're happy to meet about this.

SWB update: None

Action items from last month: CalGEM confirmed that they received a copy of the EPA Administrator letter about Class VI primacy and the links to EPA CCS symposium videos. Janice Z said she didn't get a copy of the letter but CalGEM forwarded her a copy during the meeting.

Status updates of compliance AE pkgs:

- Lynch Canyon: District's working on documenting GIS shapefile issues of original AE boundary.
- Sespe: District's updating responses to EPA comments; will give EPA a headsup before resubmitting the responses.
- Lompoc: SWB drafted the final concurrence letter; estimated pkg submittal in next few weeks
- Holser: SWB drafted the final concurrence letter; estimated pkg submittal by end of 2022
- Cat Canyon: District's reviewing data package from Cat Canyon Resources and received data packages from non-active operators.
- MWSS: In conduit analysis phase; district's working with HQ and SWB to finalize the Remediation and Monitoring Guidance.
- Kern River: In conduit analysis phase; district's working with HQ and SWB to finalize the Remediation and Monitoring Guidance.
- Mt. Poso: None
